

Pivato

tappezzeria artigiana

WHO ARE WE?

We are an established company operating in the field of interior design. Tappezzeria Pivato is a dynamic and changing business and its task is to produce high quality articles. We produce and manufacture internal curtains, bedspreads, duvets, bed sheets, towels and tablecloths.

Our evolution has brought us to meet more and more the requirements of our customers, offering a real and proper environmental consultation starting first of all from the preciosity of the materials, formats and colours to reach a certified quality of its tailoring.

Tappezzeria Pivato divides itself into two different lines of products: one supplies home furnishings for the residential market and one which specializes in the hotel market with also a special section for yachting and cruise lines.

HOSPITALITY

The furniture in the hospitality field has always been our "trump card". Upholstery Pivato provides its specific industry skills and guides the customer in the choice of materials, colors and shapes paying particular attention to the environment with which the product must merge in order to achieve a single result: perfection.
Safety is always in the first place, so we offer a wide range of fireproof certified TREVIRA CS products that are easy to maintain and wash for different types of environments.

RESIDENTIAL

The house is the place where ideas take shape, merging with the surrounding environment. Pivato upholstery dedicates particular attention to the home line, focusing especially on the choice of materials, shapes and colors, managing to transform a simple home into a real home that meets the requests and the customers' tastes.

NAVAL

Over the years we have consolidated our skills and knowledge in the naval sector, being able to satisfy the ever increasing demand for specialized know-how in the field of textile furnishings, finishes and interior decorations of cruise ships, creating curtains, bedspreads and tailor-made padding for cabins and public areas.
The knowledge gained through direct experience in the naval field has made it possible to create important supplies for the major shipping companies allowing us to invest in quality and make high quality products.

FLOORINGS

In the continuous research to satisfy the different needs, we have introduced new products and services that include a wide range of pvc flooring, interior and exterior carpet.
The variety and the high quality of our materials as well as the professionalism and service we offer are our real strengths.

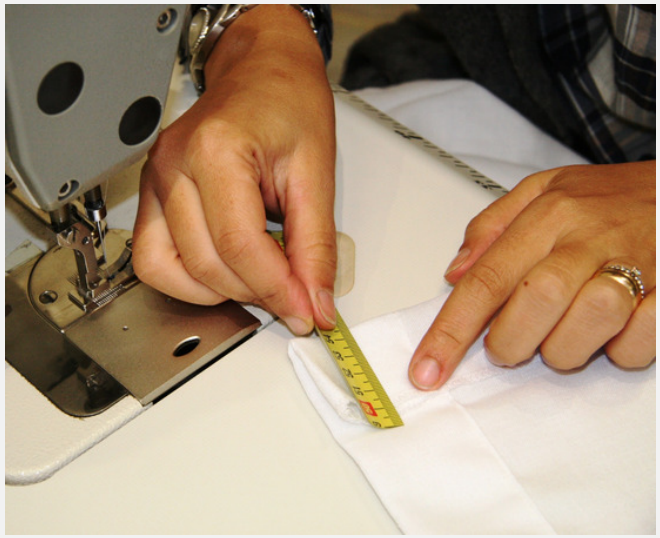

LABORATORY

Our laboratory thanks to its ten-years experience and highly specialized staff, crafts by hand any kind of interior fabric or upholstery fabric. The machineries we use in more than 600 sqm in conjunction with the craftsmanship and the high professionalism of our employees offer the possibility of dealing with various types of manufacturing and materials, guaranteeing the highest quality standards.

SERVICES

Aware that for getting an excellent results it is essential to ensure a good service, we are at the disposal of our customers following them from the inspection and identification of the work until the choice of fabrics and systems that fit the best and are more suitable to their individual needs.

ARCHITECTS

For those in the field such as architects and interior designers we make available our SHOWROOM and our lab to help them developing
and realizing their ideas. A "be to be" approach that
thanks to the direct comparison between project and materials will lead to the maximum
customer satisfaction.
